Full-Stack Web Developer

Energy systems engineering graduate, worked for 2 years in the defense industry, always been passionate about computer science and coding, I completed EPICODE's full-stack developer course. I am actively pursuing a full-stack developer role in the EU, aiming to refine my skills and make a meaningful contribution to a company.

WORK EXPERIENCE

Roketsan Missiles, Inc.

Jan 2020 – Nov 2021

Process Engineer

Ankara, Turkey

- As part of the pyrotechnics operations team, I've designed processes for production, created production routes, increased production line efficiency, planned production, and decreased costs.

Erdemir, Inc.

Jun 2018 – Aug 2018

Intern

Zonguldak, Turkey

- In this internship, I did energy and exergy calculations, gas turbine analysis and efficiency calculations, TOE (tonne(s) of oil equivalent) calculations, and daily electricity market analysis for electricity generation. With this experience, I also become familiar with corporate workflow.

EDUCATION

EPICODE

Nov 2022 – May 2023

Full Stack Development

Remote

- With this boot camp, I've learned and become proficient in popular and up-to-date web technologies. In this program, we also had teamwork projects which allowed us to improve our social skills and teamwork mindset.

Yaşar University.

Jan 2015 – Jan 2019
